Mullen

25/3/87.

I afford me particular pleasure, to introduce to you the celebrated Photographic Traveller, the Hon. John Forrest, Minister of Lands & Surveyor General of the great Province of W.A. — and you will be the more interested in him when I say that he is a native Colonist of W.A.

He could doubt-
less aid in pro-
curing the Diplo-
todon and other
of the Giant=
Animals of Jorum
geology & paleo, so
much described by you,
over the wide area,
the survey of
which are under
his supreme sur-
veillance.

Ever regard fully
yours
Jno. Von Mueller.
